ELECTRICALLY HEIGHT-ADJUSTABLE & TILTABLE TV TROLLEY, MOBILE MONITOR STAND, 50 CM STROKE

SILVER ANODIZED COLUMN, WITH COLLISION PROTECTION, C-SHAPED ROLLING FRAME (LOWERED)

PRODUCT

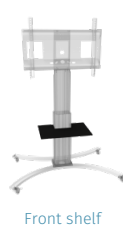

Electrically height-adjustable and tiltable TV trolley to accommodate touchscreen monitors from 55" - 75" screen diagonal.

Conen Mounts "SCETTACBRK" is mobile, height-adjustable and tiltable and is one of the best-selling monitor stands. The system was developed for use in universities, hotels and companies for collaboration in small groups. The mobile monitor stand offers 50 cm height adjustment and 0-90° tilt - both adjustments are electric. The mobile stand allows the use of any touchscreen monitor from 55"-75" screen diagonal in panel mode or as a table system or in any position in between. The system can be adjusted simultaneously or sequentially in height and angle and can be stopped in any position. The four rubberized smooth-running castors make it easy to move the system between different rooms and once again make the TV trolley the ideal solution for working environments where a high degree of flexibility is required.

The TV trolley comes disassembled in three packaging units and can be shipped by parcel service.

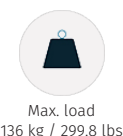

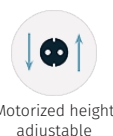

Accessories

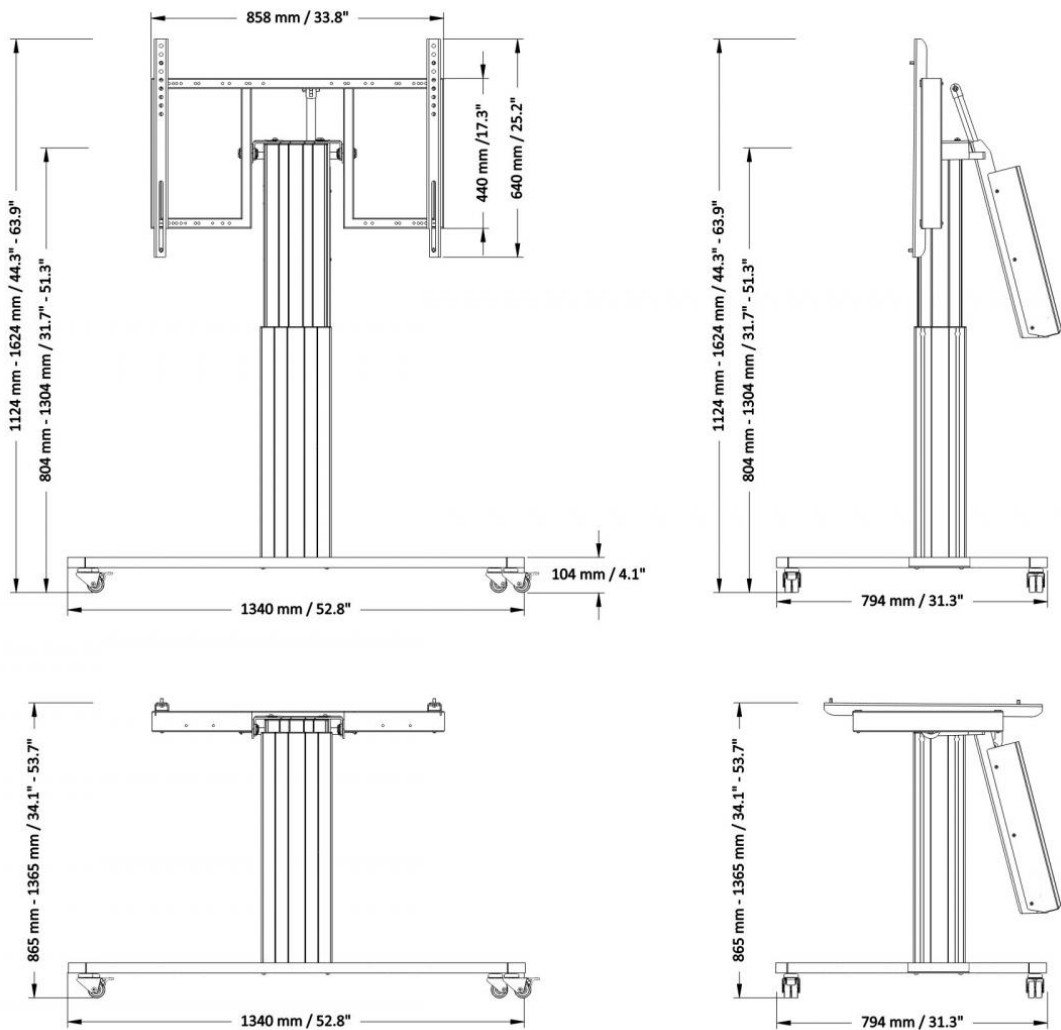

FEATURES

- Mobile TV trolley, electrically height-adjustable and electrically tiltable
- Compatible with touchscreen monitors from 55" - 75" screen diagonal and up to VESA 800x600
- Motorized height adjustment 50 cm
- Safety through collision protection - if the system runs into an object, it first stops and then immediately moves back 3 cm
